The amount of the grant varies, depending on family income. The maximum grant is \$2,000.

Persons with disabilities or families whose income is less than \$33,000 are eligible for the grant.

Certification for the work required and a doctor's verification relating to the disability must accompany the application. Applications and further information on the Home Modification for the Disabled Program are available from the local office of Saskatchewan Municipal Government or the local housing authority.

The Neighbourhood Home Ownership Program (NHOP) provides financial support to lower-income families in large urban centres, enabling these families to purchase homes in inner-city areas which are experiencing decline.

- Qualified families will receive an equity loan of up to 30 percent of the appraised value of a modest home. The Government of Saskatchewan will fund up to 25 percent of the equity loan and the respective city will fund 5 percent of the equity loan.
- Qualified families will also be eligible to receive a renovation grant. The renovation grant must be used for emergency repairs. The level of grant will depend on the need, as well as the amount, of equity loan that is received. The renovation grant is also to be funded by the Government of Saskatchewan and the respective city.
- Depending upon the level of family income, a portion of the equity loan may be deemed forgivable at the end of five years.
- Suitable houses must be located in designated inner-city neighbourhoods of large urban centres.

**Residential Rehabilitation Assistance Program (Homeowner RRAP)**

The Residential Rehabilitation Assistance Program (RRAP) offers financial assistance to low-income residents of Saskatchewan to repair their homes. The program is aimed at people who live in substandard dwellings and cannot afford repairs necessary to make their homes healthier and safer.

Repairs may include, but are not limited to, areas of structural, heating, plumbing, electrical, or fire safety. Eligible repairs are those that bring a dwelling up to a minimum standard of health and safety and extend the useful life of the home by at least 15 years.

The applicant's income must be below the Housing Income Limits and the value of the home must be below a certain value. These limits are set by CMHC for each region and they measure income levels and household size.

Maximum loans to \$18,000 for homeowners in the south with a \$12,000 maximum forgiveness. A maximum \$21,000 loan is available in the north with up to \$14,000 forgivable. Homeowners with adjusted incomes at 60 percent (or less) of housing income limits are eligible to receive the maximum forgiveness.

Contact the Saskatchewan Housing Corporation (1-800-667-7567).

**Residential Rehabilitation Assistance Program (RRAP) for Persons with Disabilities**

The Residential Rehabilitation Assistance Program (RRAP) for Persons with Disabilities offers financial assistance allowing homeowners and landlords to improve their dwellings so that they are more accessible to persons with disabilities.

Rental units must require repair or be lacking in at least one major area of standard health or safety.

Landlords may receive up to \$18,000 per unit in assistance to repair their properties. Assistance will be in the form of a forgivable loan that will not have to be repaid provided the landlord abides by the program's operating agreement.

Programs offered by Saskatchewan Social Services include:

- Building Independence – Investing in Families
- Child Day Care Programs
- Child Nutrition and Development Program
- Income Security Programs
- Saskatchewan's Action Plan for Children

### Building Independence – Investing in Families

The Building Independence strategy is intended to assist low-income families with the cost of raising children and to help low income people access training and employment opportunities. This strategy incorporates five programs.

Three of these programs support low-income working families and are described below. Two of the programs are training and employment programs (Provincial Training Allowance and Youth Futures). The two training and employment programs are described in the section for Saskatchewan Post-Secondary Education and Skills Training. For more information on any of the programs offered under Building Independence – Investing in Families call:

- **The Saskatchewan Employment Supplement** is a monthly payment that supplements the income earned by lower income parents from wages, self-employment and child/spousal maintenance payments. It assists parents with the child-related costs of going to work and supports their decision to work. The amount of the supplement depends on the parents' income and the number of children in the family.
- **The Saskatchewan Child Benefit** – This program provides a monthly allowance to assist lower income families with the cost of raising children. The Saskatchewan Child Benefit provides support for children whose families are making the transition from social assistance to work, as well as parents already working low-income jobs. This program is administered on behalf of Saskatchewan by the Canada Customs and Revenue Agency and benefits are combined with the Canada Child Tax Benefit. Eligibility is determined by the amount of family income reported on the previous year's tax return.
- **Family Health Benefits** provide supplementary health benefits to lower income working families to ensure they do not fall onto social assistance because of the health needs of their children. Families receiving the Saskatchewan Employment Supplement or The Saskatchewan Child Benefit are eligible. This program is administered by Saskatchewan Health.

### Child Day Care Programs

The employment programs described below are:

- Child Day Care Subsidy Program
- Teen Infant Centres

- **Child Day Care Subsidy Program** – The provincial Child Day Care Subsidy Program provides child care subsidies to assist low-income families in covering their child care costs. The program is based on gross monthly family income and is available to parents using authorized, licensed services who need child care because they are working, looking for work, attending education or training programs, or have children with special needs.

The amount of the subsidy depends on:

- Previous month's gross family income
- The number of your children who are attending licensed child day care
- The child's type of licensed facility
- The child's monthly fee
- The child's monthly attendance

### **Child Nutrition and Development Program**

Saskatchewan Social Services, under the Child Nutrition and Development Program, provides financial support to community partners to assist with preschool youth and family projects. Programs teach nutrition, money management and food preparation skills.

The program uses a community development approach that emphasizes community partnership, joint funding, and a coordinated community response to child hunger.

For further information on the Child Nutrition and Development Program contact your local Social Service Office (see list at the beginning of this section on Saskatchewan Social Services).

### **Income Security Programs**

Income security programs provide financial assistance to families and individuals to alleviate poverty or difficult circumstances.

- **Saskatchewan Assistance Plan** – The Saskatchewan Assistance Plan provides basic income support for families and individuals who, for reasons such as disability, illness or unemployment, may not have sufficient resources to meet their basic living costs. Social assistance provides funds for food, shelter, utilities, clothing and special needs. Supplementary health benefits may be provided by Saskatchewan Health. Any person in financial need may apply for social assistance. Social services staff work with each applicant to establish his or her needs and resources, and to develop a case plan to independence. Clients who are unable to find employment may be referred to the nearest office of Canada-Saskatchewan Career and Employment Services for assistance in accessing training and employment opportunities.

For further information about the Saskatchewan Assistance Plan contact your local Social Services office listed at the end of this section on Saskatchewan Social Services.

- **Saskatchewan Income Plan** – The Saskatchewan Income Plan program provides senior citizens with the financial assistance required to meet their basic needs. A monthly supplement is provided to seniors who have little or no income other than the federal Old Age Security pension and Guaranteed Income Supplement.

No application is necessary with the Saskatchewan Income Plan. You must first apply for the federal Guaranteed Income Supplement. Eligibility for the provincial benefit is then determined by the amount of your federal Guaranteed Income Supplement rate.

### **Saskatchewan's Action Plan for Children**

Saskatchewan's Action Plan for Children provides a framework for the development of community/government programs for children and families.

Two community grant programs are available under Saskatchewan's Action Plan for Children:

- **Associated Entities Grant Fund**
- **Prevention and Support Grant Program**

For more information about these programs, the types of projects for which funding is provided and the application process, contact the Regional Intersectoral Committee nearest you (listed on the next page).

The mandate of the Aboriginal Women's Program (AWP) is to enhance, promote and foster the social, cultural, economic and political well-being of Aboriginal women within their own communities as well as within Canadian society. It enables Aboriginal women to advance their interests through the initiation of activities and projects that improve social conditions, cultural retention and preservation, economic well-being and leadership development and training, while maintaining cultural distinctiveness and preserving cultural identity. Two initiatives of the Aboriginal Women's Program are:

- **Family Violence Initiative** – The objective of the Family Violence Initiative is to support Aboriginal peoples living off-reserve in addressing the issues surrounding violence in the nuclear and extended families of Aboriginal communities and in the examination, development and implementation of holistic and culturally appropriate responses to family violence.
- **Self-Government Initiative** – The recently approved Self-Government Initiative is to assist Aboriginal women, especially at the community level:
  - to develop their own positions, processes, strategies and research in relation to self-government
  - to participate and partner with other Aboriginal and women's groups/organizations as well as Aboriginal governments on self-government initiatives
  - to inform Aboriginal women on this very critical issue affecting their lives and those of their children and families.
